Beijing Normal - Hong Kong Baptist University United International College (UIC) <i>Bachelor of Business Administration (Honours) in Applied Economics</i>	09/2016–06/2020 Zhuhai, China

Research

- **Foreign Institutional Investors' Site Visits and Tunnelling** (*Job Market Paper*)
This study investigates whether and how foreign institutional investors' (FIIs) site visits affect tunnelling through inter-corporate loans. Using all Chinese firms listed in the Shenzhen Stock Exchange from 2012 to 2022, we find that FIIs' site visits significantly curb tunnelling across three different measures of site visits. By performing propensity score matching and multi-period difference-in-difference analysis, we suggest this relation is causal. This effect is more pronounced when FIIs hold larger shareholdings, as their more intensive and frequent visits complement each other in mitigating tunnelling problems. The curbing effect of FIIs' site visits on tunnelling is more significant than that of site visits by other institutional investors, including Hong Kong, Macao, and Taiwan (HMT), Sino-foreign, and mainland institutional investors. Finally, we show that FIIs play an effective monitoring role if they visit in groups rather than alone. The study contributes to the literature on tunnelling problems and the disciplining role of FIIs in weak institutional environments.

- **Investor-Firm Interactions and Corporate Innovation: Evidence from China**

Conference Presentations

2026:	
Financial Management Association (FMA) Annual Meeting	Tampa, Florida, USA
Asian Finance Association (AsianFA) Annual Meeting	Seoul, South Korea
European Financial Management Association (EFMA) Annual Meeting	Kristiansand, Norway
2025:	
Financial Management Association (FMA) Annual Meeting	Vancouver, Canada
Financial Management Association (FMA) European Conference	Limassol, Cyprus
European Financial Management Association (EFMA) Annual Meeting	Athens, Greece

Work Experience

University of Glasgow**10/2023–Present***Graduate Teaching Assistant (GTA)*

- Course: Foundations of International Corporate Finance (postgraduate course).
Explain key concepts in international corporate finance, including agency conflicts, mergers and acquisitions, and the time value of money. Provide guidance on effectively reading and interpreting corporate finance literature.

Academic Services

University of Glasgow**01/2025–Present***Organizer, Internal Seminars for Finance PhDs**Glasgow, UK*

- Organise a seminar series in which finance PhD students present their research and receive feedback, and invite faculty members to discuss their own papers or share job market insights.

Conference Discussant

- 2026 AsianFA: “Motivations Behind Shareholder Proposals: Signaling or Real Changes? Evidence from ESG Issues”
- 2026 EFMA: “Corporate Cultural Evolution: Cross-Sectional and Time-Series Determinants of Corporate Culture”
- 2025 FMA Annual: “Classified Boards, Debt Contracting, and Firm Value: Evidence from a Quasi-Natural Experiment”
- 2025 EFMA: “Learning from News, Information Flow, and Financial Markets”
- 2025 FMA Europe: “CEO Marital Status and Firm Diversification”

Awards and Certificates

*CFA Level I Pass**2020**Academic Excellence Scholarship, First Class (Undergraduate)**2019/2020**Academic Excellence Scholarship, Second Class (Undergraduate)**2018/2019*

Skills

Technicals: Python, Matlab, Stata, EViews, SPSS, LaTeX and all Microsoft-based software**Databases:** CSMAR (China Stock Market & Accounting Research), CNRDS (Chinese Research Data Services), Wind, Qichacha, Bloomberg, BoardEx**Languages:** Chinese (Native), English (Fluent), Korean (Intermediate)
